

## TIPS FOR USING THE WESTERN WASHINGTON PLANT ID CARDS

*If you want to make a set of laminated cards follow the directions below:*

1. Print all the individual cards you would like to have in your set, double sided, and in color.
2. Cut the printed copies in half; make sure both sides have all the information after you cut them.
3. Use 8 ½ x 11 laminate, place 2 copies in the pouch, leaving a little room in between. Each double-sided sheet makes 2 identical cards.
4. Cut the finished laminated cards in half. Place a hole punch in the top left corner and insert a clasping ring. Put as many cards that will fit comfortably on the ring.
5. You can always add more cards. We will keep adding plants and trees so come back in the future. We would love to hear about plants you would like us to add to our collection!

This is how your finished product will look:
